Cooperation agreement 2024

MTV Oy's TV channels and digital ad products

The cooperation agreement specifies the annual cooperation between MTV Oy and the customer for the agreement period. The cooperation agreement can consist of separate volumes and benefits for:

- TV advertising on MTV3, MTV Sub and MTV Ava
- MTV Total TV Easy, MTV Total TV Flexible and MTV Easy advertising by packages
- MTV Oy's digital ad products
- MTV Oy's special sales: RBS program sponsorship

The agreement may cover all the companies within a group (minimum ownership 50 %).

Special advertising solutions for TV and digital media (e.g. program sponsorship and native advertising) accrue the total sum of the cooperation agreement, but no cooperation discount is granted for them (excl. native advertising CPM).

A customer-specific cooperation agreement benefit is also applicable in programmatic private deals of MTV's digital services. When buying programmatically, only impressions purchased through private deals accrue the total sum of the cooperation agreement.

The agreement and its terms shall enter into force at the latest on that moment when each party has fulfilled its share of the agreement for the first time.

MTV's media cooperation agreement is based on the enclosed table.
